System 9 = BURY BasePlate + BURY ActiveCradle

The **System 9** is the extension for *Bluetooth®* hands-free car kits, which do not independently support the use of an external antenna or the charging function of the mobile phone battery. The components of the **System 9** are designed for *Bluetooth®* hands-free car kits of all manufacturers.

- For fixed installation or **flexi install version via cigarette lighter plug**
- A **broad range of mounting options**, e.g. on the Window Mount – flexible and removable
- Patented: **quick and easy snap-in mounting** of the cradles

BURY MultiCradle

- Compatible with a **wide range of mobile telephones**
- Telephone stays **within view and easy reach**
- Small design format** – Cradle barely visible in the vehicle

* Phone & network specific
** Available with System 9 Cradle

Errors and omissions excepted.
